There is always a new and interesting coral and fish on this reef. You can go scuba diving only if you are aged 10+ \$10 a person for 30 minutes in this magical sea of life.

There is a boat with a glass bottom, so you can see the wildlife for \$12 for 1 hour, this also means younger friends can see the beautiful reef from the comfort of our boat while the adults can enjoy a feet up with a local wine or local beer brewed locally from its own private bar.

We have glass aquariums full of fish over your lovely cosy bed so when you wake up you will see a variety of fish over your head it is a light show at night because the light colors of the ocean will be glimmering in the water so sit up and watch the light show at night. You don't need it to rain and be sunny at the same time you are already in a sea of wonder and imagination of a colorful rainbow in the glimmering sea.

There are windows that let you see the water of the salty sea and the salty breeze of the sea. Most people that have came recently sead “It is such a good view that they really want to come again and again.”
